STATUS OF PORTORICO

Severe Arraignment of Legacies the Spaniards Left

REPORT OF ELLIOTT

It Says Pompous Officials But Poor Natives Have Toiled and Tributed

Washington, Nov. 20.—Arraignment of the legacies left by the Spanish maladministration in made in the annual report of H. Elliott, commissioner prior for Porto Rico, made in the interior department. Mr. Elliott says it is a pity and shame that centuries preceding American rule the island so very poor was made to open up commerce and that a small portion of the dollars wrung from the taxes and impostes should be spent in the betterment of education and for any other purpose. Pompous officials came, ruled, or, tarried a little while with a competency of ill-leaving the unhappy natives and suffer. There are yet a few interior towns whose only outlet is ancient trails, but they are now approached as rapidly as possible. The economic value of road extension work now in progress is demonstrated," he says, "by saving from 50 to 70 per cent in the cost of transportation to and from the interior."

The report says the power of mayors to remove the health officers of their towns seriously interferes with good sanitary service, and consequently the people, and particularly the poor, of many municipalities suffer and die for want of proper attention. The next session of the legislative assembly is expected to remedy this evil. He says the advent of civil government for the majority of the municipalities in bankrupt condition, "from which they have fully recovered and remain miserably bad."

"Hospitals, consequently," the report says, "in towns where they are made for providing them for the sick, so the sick poor are left to the means to employ medicine or left to sicken, die or recover by native remedies, all or avail."

"A great field for philanthropy lies open in Porto Rico," the report says. "Coffee, once the leading export and source of wealth, has passed through many vicissitudes in the past decade. There has been very little new planting; there is no profit to planters with coffee at present prices, and should prices lower the situation would be distressing."

CONDUCTOR'S STORY.

Big Four Employee Stayed Until the Time Limit Had Expired.

Bloomington, Ill., Nov. 20.—The known list of dead in the Menert wreck is thirty-two, and injured seventeen. Conductor Judge, who was on the freight train running west, said he had orders to wait at Mackinaw until 2:40 o'clock for the work train. He obeyed orders and stayed there until that time. The work train not coming in, he supposed it had sidetracked at Tremont and accordingly he started ahead. He was coming along at a brisk rate of speed when the engine of the work train appeared in sight. Both engines applied air and then, together with their firemen, jumped for their lives. None of the trainmen, with the exception of Brakeman Harmon, whose arm was broken, were injured.

CLINGING TO HOPE.

Mediation Committee of Chicago City Officials Waited With Patience.

Chicago, Nov. 20.—Still clinging to the hope that the termination of the car strike might be achieved through efforts of arbitration, Mayor Harrison and the aldermanic mediation committee gathered at the former's office Friday. The members of the executive board of the striking division car men previously assembled with President Mahon to discuss a counter proposition made by railway officials Thursday night. The peace board of city officials waited as patiently as possible for the strikers' representatives to make a decision which might mean an amicable adjustment of the strike or another step toward the general demoralization of the city's industries. At union headquarters the impression prevailed that the offer would be rejected. The operation of four lines—Cottage Grove Avenue, Indiana Avenue, Wentworth Avenue and Holstead Street lines—continued practically on the same basis as Thursday.

Armistice Declared. Chicago, Nov. 20.—Pending settlement of street car strike an armistice was declared.

RIGHTFUL ACCIDENT.

Terrible Rear End Collision Takes place on Big Four.

THIRTY-ONE KILLED.

Piled Thirty Feet and of a Locomotive

Washington, Nov. 20.—A terrible rear end collision took place on the Big Four Thursday night, resulting in the death of thirty-one persons. The locomotive, No. 10, was struck from behind by another locomotive, No. 11, which was running at full speed. The collision occurred on a curve in the track, and the locomotive was thrown into the air and fell on the passenger cars. The passenger cars were also thrown into the air and fell on the ground. The collision occurred at a time when the train was carrying a large number of passengers, and the result was a terrible tragedy. The bodies of the dead were recovered from the wreckage, and the injured were taken to the hospital. The cause of the collision is being investigated by the railroad authorities.

One of the last bodies recovered was that of William Bailey of Mackinaw, who had been thrown thirty feet into the air and held in place by two steel rails which had been pushed up between the engine and tender of the work train.

The workmen had been engaged in laying rails at different points along the tracks. Brakeman J. N. Hyer of the work train was thrown seventy feet away from the track, and sustained a broken leg.

The injured were taken to the two cabooses of the relief trains, where temporary hospitals were improvised.

PASSED CUBAN BILL.

Dissenting Voters Equally Distributed Between the Two Parties.

Washington, Nov. 19.—The house by a rising vote of 335 to 21 passed the bill to make effective the Cuban reciprocity treaty. The dissenting votes were equally distributed between Republican and Democrats, but there was no record vote, the minority having too few votes to order the yeas and nays.

The Democrats, under the leadership of Mr. Williams, sought to the last to secure amendments to the bill in accordance with the action of the Democratic caucus, but were defeated steadily. Mr. Williams made the final effort when he tried to have the bill re-committed to the ways and means committee with instructions to amend, but a point of order under the special rule providing for a vote on the bill without intervening motion was sustained. Mr. Cannon received the applause of the Democratic side when he entertained their appeal from his ruling made by Mr. Williams, the speaker saying he preferred to err, if he erred at all, in giving the house the right to express its will. The appeal was tabled by a strict party vote.

Mr. Williams closed the debate for his side and made an arraignment of the policy of protection.

Mr. McCall (Rep., Mass.) made the closing speech on the Republican side. Mr. Broussard (Dem., La.) opposed the bill and Mr. De Armond (Dem., Mo.) supported it. The announcement of the passage of the bill caused only a slight demonstration.

Mr. McClellan, mayor elect of New York City, occupied the speaker's chair for a while as chairman of the committee of the whole house.

IMPORTANT FACTOR.

Under Weather Proving of Great Value In Stamping Out Fever. Laredo, Tex., Nov. 20.—The colder weather is proving an important factor in the stamping out of the yellow fever, and a gradual diminution in the number of cases is being reported. If the present weather continues for a week it is likely that the disease will be entirely stamped out.

The official bulletin, issued by the state health department Thursday night is as follows: New cases, 19; deaths, 8; total cases to date, 982; total deaths, 36. Of the cases reported Thursday, seventeen are new and two are old.

Cannel, Tex., reports one additional case, making the total number of cases twenty.

Cases from Nuevo Laredo state have been entirely stamped out. Dr. Trevino, the Mexican health officer, has been in charge of the work for Tampico.

Nov. 20.—Hon. Dionicio Dr. Antonio R. Blanco, envoys from the Colombian government to the United States, accompanied by Mr. Julio their interpreter, came into Laredo Thursday morning off the ship, Cuban, and left for Washington. The vessel arrived here Monday and has been in quarantine since that time. The gentlemen stoutly maintain that they are private citizens traveling on pleasure, but in a local interview they diplomatically discussed Colombian affairs, and with the exception of denying that they are emissaries, gave every reason to believe that they were in this country on official business. They were closeted the entire morning with United States officials here, and the later, when asked as to the identity of the party and their mission, replied they "had nothing to say."

EVER A SECRET.

Cause of Fatal Difficulty Between Priest and Layman Dies With Them.
Denver, Nov. 20.—Rev. Father Felix Marino Lepore, pastor of Mount Carmel Catholic church in this city, who was shot Wednesday night by Joseph Sorice of Pittsburg, it is claimed, after a game of cards in the priest's apartment at the rear of the church, died Thursday night at 11 o'clock. Nothing new was developed as to the cause which led to the shooting, but it is generally believed to have been brought about by disagreement over money matters. The story of the card game is discredited. There is no trace nor evidence of cards found in the room where the shooting occurred.

An ante-mortem statement Father Sorice said he believed his assailant sent to Denver for the purpose of killing him.

Coming to Denver in 1893, Lepore conducted a banking business in New York, where, it is said, he made for a considerable amount. Lepore said his uncle had known Pasquet in Italy. Efforts are being made to find Pasquet. It is believed that behind the tragedy lies a story extending back to the days of the Italian revolution.

Other Participant Dies.

Nov. 20.—Joseph Sorice, who was shot Wednesday night in a desperate struggle with Father Lepore, succumbed to his wounds early Friday. Sorice refused to make any statement. The secret of the tragedy was probably never known when death claimed him.

HANNA DECLINES.

Friends Not to Place Him in "Embarrassing Position."
Scott, Kan., Nov. 20.—After the election J. Conine of this city, an ex-senator, wrote to Senator Hanna asking him to become a candidate for the Republican nomination for president. Mr. Conine received the following letter:

"Please accept my thanks for your letter of congratulations on the result of the recent election in Ohio. I consider the great victory there an endorsement of the victories and policies of the Republican party and should find an echo next year. I am certain all who are interested in the prosperity of our country agree that the Republican party should be in power, and Ohio has spoken unequivocally. While I am gratified by the result, which might be considered a personal vindication, it does not justify the claims of my friends with reference to suggestions of my nomination for the presidency. I have no personal ambition to advance and my desire to serve my party constrains me to ask my friends not to place me in the embarrassing position which would result from such a movement."

Dr. Amador assured the secretary that no time would be lost in its ratification by the Panama government.

SEVEN BLOCKS BURNED.

Fifteen Hundred Poor People Left Practically Without Homes.

City of Mexico, Nov. 20.—The fire which started at Vera Cruz Wednesday at noon totally destroyed seven blocks of dwellings, leaving 1500 people homeless. Nearly all the victims of the fire are poor people, the commercial interests of the port not being affected. There is no estimate of the loss sustained, but the aggregate will not reach a great sum, as practically all the property destroyed was little better than huts. To the poor people burned out, however, it will be a terrible blow, as they lost all their worldly possessions. Within after four hours after the fire started seven squares had been razed despite the united efforts of the firemen, troops, citizens and the crews of vessels in the harbor. The fire swept across the sections traversed by railway lines.

Sure Relief for Women.

No. 18 Central Ave. HOT SPRINGS, ARK., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any. A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Anna Nelson
ORATOR, WEDNESDAY CHAUTAUQUA CLUB.

WINE of CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.
